- ❖ Right person
- ❖ Right time
- ❖ Right supervision

⌚ *Delegating beyond competence = Violation of delegation*

6 MOTIVATION THEORY (BASIC EXAM USE)

Motivation Tools

- ❖ Praise
- ❖ Recognition
- ❖ Certificates
- ❖ Promotion

Exam shortcut:

Reward → Transactional / Motivation

7 CONFLICT MANAGEMENT (VERY COMMON)

- ❖ *Sources of Conflict:*
 - Workload
 - Shift schedules
 - Poor communication
- ❖ *Conflict Resolution Methods:*
 - Discussion
 - Listening
 - Fair decision-making

Keywords:

Resolve, investigate, fair → Conflict management

8 DECISION-MAKING IN NURSING

Steps:

- Identify problem
- Collect data
- Consider options
- Choose best action

- **Evaluate**

 **Exam clue:**

Prioritizing critically ill → Decision-making

9 EXAM TRICKS YOU MUST USE

Trick 1

- **If question says:**

- ✓ **Monitoring, audit, evaluation → CONTROLLING**

Trick 2

- **If question says:**

- ✓ **Meeting, discussion, opinions → DEMOCRATIC**

Trick 3

- **If question says:**

- ✓ **Emergency, strict, no input → AUTOCRATIC**

Trick 4

- **If question says:**

❖ 🧠 **FINAL EXAM LOGIC FORMULA (REMEMBER THIS)**

- ❖ **Goal? → Planning**
- ❖ **Arrange? → Organizing**
- ❖ **Guide? → Directing**
- ❖ **Check? → Controlling**
- ❖ **Reward? → Transactional**
- ❖ **Emergency? → Autocratic**
- ❖ **Change? → Transformational**

❖ 🧠 **MISTAKE-BASED REVISION – LEADERSHIP & MANAGEMENT**

- ❖ **1 Autocratic vs Democratic**
- ❖ **Common Mistake:**
- ❖ **Students pick Democratic in emergencies because “staff discussion” sounds nice.**
- ❖ **Rule:**
- ❖ **Emergency, critical outbreak, mass casualty → Autocratic**
- ❖ **Staff meetings, brainstorming, workload planning → Democratic**
- ❖ **Example:**
- ❖ **“Head nurse imposes strict rules during measles outbreak” → Autocratic**
- ❖ **Tip: Always look for urgency & staff input.**
- ❖ **2 Controlling vs Directing**
- ❖ **Common Mistake:**
- ❖ **Confusing Directing with Controlling.**
- ❖ **Logic:**
- ❖ **Directing → giving instructions, guiding, supervising, motivating**
- ❖ **Controlling → monitoring, evaluating, feedback, checking**
- ❖ **Example:**
- ❖ **“Monitoring vaccine temperature” → Controlling**
- ❖ **“Giving instructions during vaccination campaign” → Directing**
- ❖ **Tip: Ask yourself: “Am I checking or guiding?”**
- ❖ **3 Task Role vs Social-Emotional Role**
- ❖ **Common Mistake:**
- ❖ **Assigning “team-building” as Task role.**

- ❖ **Logic:**
- ❖ **Task role** → assignments, duty roster, work
- ❖ **Social-emotional** → morale, team cohesion, support
- ❖ **Example:**
- ❖ **Organizing a team-building activity** → Social-emotional
- ❖ **Assigning shifts** → Task role
- ❖ **Tip:** Key words: morale, harmony, team → Social-emotional
- ❖ **4 Delegation Traps**
- ❖ **Common Mistake:**
- ❖ **Picking “Proper delegation” even if task is beyond competence.**
- ❖ **Logic:**
- ❖ **Proper delegation** = right task, right person, proper supervision, safe situation
- ❖ **Beyond skill** → Violation of delegation
- ❖ **Example:**
- ❖ **Junior nurse giving IV without training** → Violation
- ❖ **Tip:** Ask: “Can the person safely do this task?”
- ❖ **5 Leadership Styles Confusion**
- ❖ **Common Mistake:**
- ❖ **Confusing Transformational & Transactional.**
- ❖ **Logic:**
- ❖ **Transactional** → reward/punishment, short-term motivation
- ❖ **Transformational** → inspires change, innovation, long-term improvement
- ❖ **Example:**
- ❖ **Rewarding certificates** → Transactional
- ❖ **Inspiring staff to improve immunization** → Transformational
- ❖ **Tip:** Reward = transactional, inspiration/change = transformational
- ❖ **6 Planning vs Organizing**
- ❖ **Common Mistake:**
- ❖ **Thinking “arranging staff” is Planning**
- ❖ **Logic:**
- ❖ **Planning** → sets objectives/goals
- ❖ **Organizing** → arranges resources (staff, supplies, shifts)
- ❖ **Example:**
- ❖ **Target 95% immunization** → Planning
- ❖ **Assigning nurses & PPE** → Organizing
- ❖ **Tip:** “Decision vs arrangement” = Planning vs Organizing
- ❖ **7 Procedural vs Individual Role**
- ❖ **Common Mistake:**
- ❖ **Confusing procedural role (reports) with individual role (mentoring).**
- ❖ **Logic:**

- ❖ *Procedural* → documents, reports, policies
- ❖ *Individual* → one-to-one coaching, mentorship, guidance
- ❖ *Tip: “Who benefits?”* Staff member → Individual; Health office → Procedural

8 Motivation vs Transactional

- ❖ *Common Mistake:*
- ❖ *Picking Transformational for praise/reward scenarios*
- ❖ *Logic:*
- ❖ *Praise, certificate, recognition = Transactional / Motivation*
- ❖ *Long-term change, innovation = Transformational*
- ❖ *Tip: Keywords: reward, certificate, achievement → Transactional*

9 Conflict Management

- ❖ *Common Mistake:*
- ❖ *Selecting “Planning” or “Communication” when resolving disputes*
- ❖ *Logic:*
- ❖ *Conflict resolution involves: listening, discussion, fair solution → Conflict Management*
- ❖ *Tip: “Problem between staff” = Conflict management*

10 Decision-Making

- ❖ *Common Mistake:*
- ❖ *Not recognizing priority-setting scenarios*
- ❖ *Logic:*
- ❖ *Any triage / prioritization / critical thinking → Decision-making*
- ❖ *Example:*
- ❖ *Prioritizing care for critically ill patient → Decision-making*
- ❖ *Tip: Ask: “Is a choice being made based on urgency or risk?” → Decision-making*

- ❖  **HIGH-TEXT EXIT EXAM TRICKS – TEXT VERSION**
- ❖ *Emergency, critical patient → Autocratic → Keyword: Strict, urgent*
- ❖ *Giving instructions → Directing → Keyword: Guide, supervise*
- ❖ *Monitoring, audits → Controlling → Keyword: Check, evaluate*
- ❖ *Duty roster → Task role → Keyword: Assignments, work*
- ❖ *Team morale → Social-emotional → Keyword: Morale, harmony*
- ❖ *Mentoring → Individual → Keyword: Coaching, one-to-one*
- ❖ *Reports → Procedural → Keyword: Documentation*

- ❖ *Reward certificates → Transactional → Keyword: Praise, achievement*
- ❖ *Staff opinion in decisions → Democratic → Keyword: Discussion, vote*
- ❖ *Prioritizing patients → Decision-making → Keyword: Critical, triage*
- ❖ *This is perfect for last-minute revision – just read the scenario, and the answer pops in your mind.*
